

Adaptix will transform radiology with its development and manufacture of new Flat Panel X-ray sources (FPS) enabling low-cost, portable, 3D X-ray devices that will improve the diagnosis of patients.

Our promise to you:

- A commitment by company directors, management and all staff to fulfil key development milestones by adhering to a robust Quality Management System.
- To surpass the expectations of our customers, shareholders, employees and regulators through having compliant and efficient processes.
- Ensure regulatory compliance, effectiveness and improvement of our Quality Management System that satisfies the requirements of the ISO 13485 standard and the European Medical Device Regulation MDR 2017/745.
- Apply risk-based processes and decisions based on ISO 14971.
- Provide safety and product confidence for our users through EC-60601-1 for our hardware; and IEC 62304 for our software.
- Provide outstanding service and product quality to achieve our aims of success, improvement and innovation; fundamental in meeting our customer needs, expectations and well-being.
- Nurture and support strong positive partnerships with our suppliers.
- Invest in our personnel and their training, to further enhance our competence levels and our performance.

Adaptix actively promotes that everyone is responsible for Quality in our company – our service, product, safety, operations and integrity
